

June 28, 2022

To: RABC Members & Interested Stakeholders

Canada is considering hosting a meeting of the Permanent Consultative Committee II (PCC-II) of the Inter-American Telecommunication Commission (CITEL) from August 28 to September 1, 2023. The meeting would be held at the Shaw Centre in downtown Ottawa and would be the final PCC-II meeting before the World Radiocommunication Conference 2023 (WRC-23).

Hosting PCC-II allows for increased participation of CPC members, including all Agenda Item Coordinators and interested private sector members. In addition to supporting the work of the CPC in promoting Canadian WRC-23 proposals, this event will provide a unique opportunity for your organizations to forge partnerships and promote your brand before a Pan-American audience.

As in 2015 and 2019 when Canada also hosted the final meeting of PCC-II before the respective WRCs, Innovation, Science and Economic Development Canada has asked the Radio Advisory Board of Canada (RABC) to partner in hosting this event. Prior to officially confirming Canada as the host country, it is critical that we receive expressions of interest from organizations to participate as sponsors. To this end, the RABC has developed the attached program that identifies sponsorship at the silver, gold and platinum levels.

Please advise Mr. David Farnes, General Manager, RABC at david@rabc-cccr.ca whether your organization would consider participating in this sponsorship program. You are also welcome to contact myself, Mrs. Elisabeth Neasmith, President, RABC at neasmith@telesat.com at any time. We would greatly appreciate feedback by August 31, 2022, and earlier if possible. Thank-you very much for your consideration and support.

Sincerely,

A handwritten signature in black ink that reads "J.D. Farnes".
