**Subject: RSS-248, Draft Issue 3**

Dear Josette Gallant,

In June 2024, the Department requested that RABC review draft issue three of Radio Standards Specification (RSS) -248, – *Radio Local Area Network (RLAN) Devices Operating in the 5925-7125 MHz Band*. The Board assigned the review of the standard to the Fixed Wireless Communications Committee. The Committee held one meeting to review the proposed changes to the standard, during which feedback was provided to the Department.

In addition, at the request of the Department, RABC posted the draft standard on its website to facilitate comments from Canada’s World Trade Organization (WTO) partners. A total of ten (10) comments were received and forwarded to the Department for consideration.

The Board has now completed its review. We appreciate having had the opportunity to review the updated standard.

Sincerely,

J. David Farnes  
General Manager
