**Subject: RSS-247, Draft Issue 4**

Dear Josette Gallant,

In February 2025, the Department requested that RABC review draft issue four of Radio Standards Specification (RSS) -247 – *Digital Transmission Systems, Frequency Hopping Systems and Licence-Exempt Local Area Network Devices in 902-928 MHz, 2400-2483.5 MHz, 5150-5350 MHz, and 5470-5895 MHz bands*. The Board assigned the review of the standard to the Fixed Wireless Communications Committee. The Committee held two meetings to review the proposed changes to the standard, during which feedback was provided to the Department.

I have attached the draft RSS with the Board's proposed changes to the standard. The proposed changes are in Sections 7.1 and 7.3.6.1.

In addition, at the request of the Department, RABC posted the draft standard on its website to facilitate comments from Canada's World Trade Organization (WTO) partners. A total of nine comments were received on our WTO portal and forwarded to the Department for consideration.

The Board has now completed its review. We appreciate having had the opportunity to review the proposed changes to the standard.

Sincerely,

J. David Farnes  
General Manager
