(Submitted by email)

Dear Ms. Gallant,

**Re: RSS-220, Issue 1, Amendment 1: Devices Using Ultra-Wideband (UWB) Technology**

In March 2018, the Department requested the RABC to create a working group to review draft versions of RSS-220, Issue 1, Amendment 1. Further, the RABC was requested to make the draft standard available on its website and to receive comments as part of the World Trade Organization's (WTO) notification process.

The Board established a working group comprising of approximately thirty participants, including several guests from the automotive industry, and held one call to review the draft. During the review, feedback on the draft was provided to the Department.

I am pleased to report that the working group has accepted the draft of the standard (RSS-220, Issue 1, Amendment 1, March 2018), as presented by the Department.

We appreciate the opportunity to provide input on the draft standard and look forward to its publication.

Sincerely,

J. David Farnes  
General Manager
