Dear Ms. Gallant,

**Re: RSS-181, Issue 2, Coast and Ship Station Equipment Operating
in the Maritime Service in the Frequency Range 1605-28000 kHz**

In March 2019, the Department requested the RABC review the proposed changes to RSS-181. The Board informed its members of the review and assigned the review to the RABC Mobile & Personal Communications Committee.

Also, at the request of the Department, the consultation was posted to the RABC website in order to facilitate the receipt of comments from WTO members. We have not received any correspondence via the WTO portal in relation to RSS-181.

RABC has completed its review and is satisfied with the proposed changes to RSS-181. We appreciate the opportunity to review the proposed standard.

Sincerely,

J. David Farnes
General Manager
