Dear Ms. Gallant,

Re: RSS-310, Issue 5, Licence-exempt Radio Apparatus – Category II Equipment

In August 2019, the Department requested the RABC review the proposed modifications to RSS-310. The Department also requested RABC to post the consultation to the RABC website in order to facilitate the receipt of comments from WTO members.

The Board assigned the review of RSS-310 to the RABC EMC Committee. The EMC Committee deemed the proposed changes to be minor in nature and has not identified any major concerns with Issue 5 of RSS-310.

RABC also received one comment via the WTO portal. The comment was forwarded to ISED for response.

The Board has completed its review and is satisfied with the proposed Issue 5 of RSS-310. We appreciate having had the opportunity to review the proposed modifications to the standard.

Sincerely,

J. David Farnes
General Manager
