Dear Ms. Gallant,

Re: SPR-003 Issue 1, Supplementary Procedure for Assessing Radio Frequency Exposure Compliance of Portable Devices Operating in the 60 GHz frequency band (57 GHz – 71 GHz)

In August 2019, the Department requested the RABC review SPR-003, Issue 1. The Department also requested RABC to post the consultation to the RABC website in order to facilitate the receipt of comments from WTO members.

The Board assigned the review of the Supplementary Procedure to the RABC EMC Committee. The EMC Committee held one call to conduct its review. RABC members have not identified any major concerns with the proposed Supplementary Procedure.

RABC also received 3 comments via the WTO portal. These comments were forwarded to ISED for response.

The Board has completed its review and is satisfied with the proposed SPR-003, Issue 1. We appreciate having had the opportunity to review the proposed Supplementary Procedure.

Sincerely,

J. David Farnes
General Manager
