Re: DC-01 Issue 7 – Procedure for Declaration of Conformity and Registration of Terminal Equipment; and CS-03, Part V, Issue 9, Amendment 3 – Requirements and Test Methods for Magnetic Output From Handset Telephones for Hearing Aid Coupling and for Receive Volume Control

Dear Ms. Gallant,

In November 2020, the Department requested the RABC review the above noted documents. The Department also requested the documents be posted to the RABC website in order to facilitate the receipt of comments from WTO members.

The Board assigned the review of the documents to the RABC Electromagnetic Compatibility Committee. The Committee held one call to review the documents. There were roughly ten stakeholders represented on the call, including guest participation from LabTest Certification. No significant concerns regarding the documents were raised by RABC members during the RABC review.

The Board has completed its review of DC-01, Issue 7 and CS-03, Part V, Issue 9, and recommend the Department publish the documents. We appreciate having had the opportunity to review the updated procedures.

Sincerely,

J. David Farnes
General Manager
