File: 2000

Dear Mr. President

On behalf of the Nominating Committee comprised of Paul Frew (Electro-Federation of Canada), Bill Taylor (Bell telecom Group) and led by myself, I am pleased to submit our recommendations for nominees to stand for election to the 3 vacant Vice President positions on the Executive Committee of the RABC as follows:

- **Mr. Paul Bush** (representing FCSA)  
Vice-President, Corporate Development  
Telesat Canada
- **Patrick Fernet** (representing CWTA)  
Vice-President, Engineering  
Wispra Networks Inc.
- **Mr. Tom Lam** (representing WCTC)  
Vice President, WCTC  
Manager, Communications Engineering  
BC Gas Utility Ltd.

All 3 candidates have agreed to serve should they be elected.

In making these selections we have given consideration to their potential to contribute to the Executive Committee's deliberations in directing the RABC, based on their level of responsibility in their organizations attesting to their recognition there and in industry, the sub-sector of industry that they represent (satellite services, terrestrial fixed and mobile services and the public utilities sector) their membership affiliation, and their geographic location, among other considerations. We believe that these candidates have the potential to constitute a substantive addition to the quality of the RABC Executive.

Submitted on behalf of the Nominating Committee,

***Original signed by***

Phil Saunders, RABC Past President.

**Radio Advisory Board of Canada**

116 Albert Street, Suite 811  
Ottawa, ON  
K1P 5G3
