# Industry Canada Updates – Fixed Issues

RABC Quarterly Committee Meetings  
December 2013  
Ottawa, Ontario  
Michael Christensen

Canada 

# Consultations and Decisions

- **Backhaul**
  - Initial decision paper anticipated in early 2014
    - likely will include further consultation on some issues
  - Given breadth of consultation anticipate more than one decision
    - Additional decisions in 2014-15
  - Consequential changes to standards and policies
  
- **Revisions to Canadian Table of Frequency Allocations (CTFA)**
  - Comment period ended Sept. 27, 2013
  - 11 comments received
  - Revised CTFA anticipated in 1<sup>st</sup> half of 2014
  
- **FSS/FS Sharing (25.05-25.25 GHz)**
  - Comment period ended Nov. 13, 2013
  - 5 comments received
  - Decision anticipated in 1<sup>st</sup> half of 2014

# TV White Space

- **Discussions well underway**
  - Have agreed on text for RSS-222
  - Discussion on DBS-01 and DBAP nearly done
  - LPA discussion underway
- **More detail in separate presentation**

# SRSPs

- **SRSP 302.0 gazetted October 12, 2013**
- **Editorial updates to SRSP 324.25 pending**
- **SRSP-102 covering 1.4 GHz Aeronautical Mobile Telemetry (AMT)**
  - Internal review and approval underway, but likely some time out
- **SRSP 370 covering 70, 80 GHz bands**
  - Draft for RABC comment in 1<sup>st</sup> half of 2014

# Other Activities

- **International activities**
  - ITU-R WP 5C and Radio-technical liaison committee with U.S.
- **Spectrum Applications Modernization (SAM)**
  - Will be reviewing RSP-113 for consistency with the new online application structure
