February 15, 2018

Ms. Josette Gallant
Director, Regulatory Standards
Engineering, Planning and Standards Branch
Innovation, Science and Economic Development Canada
235 Queen Street, 6th Floor
Ottawa, ON, K1A 0H5
(Submitted by email)

Dear Ms. Gallant,

Re: RSS-140, Issue 1: Equipment Operating in the Public Safety Broadband Frequency Bands 758-68 MHz and 788-798 MHz

In December 2017, the Department requested the RABC to create a working group to review draft versions of RSS-140, Issue 1. Further, the RABC was requested to make the draft standard available on its website and to receive comments as part of the World Trade Organization's notification process.

The Board established a working group comprising of approximately twenty-five participants and held two calls to review the draft. During the review, feedback on the draft was provided to the Department.

I am pleased to report that the working group has accepted the second draft of the standard (RSS-140, Issue 1, draft 2), as presented by the Department.

We appreciate the opportunity to provide input on the draft standard and look forward to its publication.

Sincerely,

J. David Farnes
General Manager
